Let your work flow™
with Millipore

FREE SEMINAR - Tuesday, March 30, 2010
ELETTRA Sincrotrone Trieste S.C.p.A.
in AREA Science Park

Please register on www.millipore.com/euseminar by March 25, 2010.

How Millipore Water Systems Let Work Flow in the Laboratory

In today's challenging economy where laboratories are being asked to "do more with less," lab personnel are looking for ways to improve productivity. One often overlooked place to start is the water purification system found in almost every lab.

Take a few hours to share your experience with our experts and find the best solutions to improve your lab performance.

Are you ready to upgrade?

Program

09.45: Participants registration

10.00: Millipore Bioscience Division and Sincrotrone Trieste activities

(Presentation will be held in English)

10.15: Milli-Q Integral and Advanced purification Technologies. *(Presentation will be held in English)*

Speaker: Jean-François Pilette

11.15: Coffee Break

11.30: Ultra Pure water for advanced applications

(Presentation will be held in English)

Speaker: Jean-François Pilette

12.30: Millipore and Neuroscience: a total solution provider. A brief overview of our solutions

(Presentation will be held in English)

Speaker: Carlo Raviolo

13.00: Q&A and cocktail

13.40: Laboratory's visit
