6th International Workshop on Accelerator Operations

WAO7

Topics:

Communications
To/from others and within the group
Training
Remote operations

Commissioning
Experience from lately commissioned machines
Commissioning under constrains
Control systems from the view of commissioning, operations and user interface

Health/Safety
On humans
On machines
Incident recovery and machine protection
Responsibilities of operators

Operability
Failure and recovery
Reliability, performance measures and benchmarking
Old machines and aging hardware

Operators
What operators should do
Software
Documentation
Safety enforcement
Emergency response

Poster session and two open discussion sessions

Program & Registration Information: http://www.elettra.trieste.it/wao07/

Program Committee:

Roger Bailey, CERN
Michael Bieler, DESY
Rick Bloemhard, LBL
Jinhyuk Choi, PAL
George Dodson, SNS
Laurent Hardy, ESRF
Peter Ingrassia, BNL
Dan Johnson, FNAL
Emanuel Karantzoulis, Elettra
Michael Spata, JLAB
Mike Stanek, SLAC
Eiichi Takada, NIRS
Violeta Toma, TRIUMF

September 24-28

ICTP Adriatico Guesthouse

Hosted by: Sincrotrone Trieste, ELETTRA Laboratory

2007
Trieste, Italy

Local Organizing Committee: Ivan Andrian, Andrea Apollonio, Stefano Deiuri, Emanuel Karantzoulis, Stefano Krecic, Roberto Passuello
Anna Pili, Cristiana Roberti, Elisabetta Save, Massimo Vento, Ilde Weffort
